

## Overledger 2.2.20 Release notes

### What's new?

#### Overledger 2.2.20

This is a maintenance release that resolves minor issues with address subscriptions. There is no new functionality or features included in this version.

#### Improvements

- We have fixed an issue with subscribing to addresses so that customers can set up their subscription for a single address across multiple blockchain networks.

#### Known issues

- When preparing a transaction, an incorrect error message is returned when a space is added to the end of the network value in the location object when preparing any type of transaction.
